FARADAY COPPER CORP.

Notes to the Condensed Interim Consolidated Financial Statements

For the three months ended March 31, 2026 and 2025

(Unaudited - expressed in Canadian dollars, except where noted)

1. NATURE OF OPERATIONS

Faraday Copper Corp. (the "Company") was incorporated on October 21, 2014 under the Business Corporations Act (British Columbia). The Company's registered office is located at Suite 2400, 745 Thurlow Street, Vancouver, British Columbia, V6E 0C5. The Company's head office and principal address is located at 2800 - 1055 Dunsmuir Street, Vancouver, British Columbia, V7X 1L2. The Company's shares are traded on the Toronto Stock Exchange and OTCQX under the symbol "FDY" and "CPPKF", respectively, and its principal business is the acquisition and development of resource properties.

Going concern assumption

These unaudited condensed interim consolidated financial statements (the "Interim Financial Statements") for the three months ended March 31, 2026 and 2025 have been prepared based on accounting principles applicable to a going concern, which assumes that the Company will be able to continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. The Company is a resource exploration stage company, which does not generate any revenue and has been relying mainly on equity-based financing to fund its operations. For the three months ended March 31, 2026, the Company incurred a net loss of \$9,891,214 (2025 - \$7,820,431). The Company will require additional financing either through equity or debt financing, sale of assets, joint venture arrangements, or a combination thereof to meet its administrative costs and to continue to explore and develop its resource properties. There is no assurance that sufficient future funding will be available on a timely basis or on terms acceptable to the Company. These Interim Financial Statements do not include any adjustments to the amounts and classification of assets and liabilities that may be necessary should the Company be unable to continue as a going concern, and any such adjustments may be material.

2. BASIS OF PREPARATION

a) Statement of compliance

These Interim Financial Statements were approved by the Board of Directors and authorized for issue on May 7, 2026.

These Interim Financial Statements have been prepared in accordance with International Accounting Standard 34 ("IAS"), *Interim Financial Reporting*. Certain disclosures included in the Company's audited consolidated financial statements for the years ended December 31, 2025 and 2024 ("Annual Financial Statements") prepared in accordance with IFRS® Accounting Standards as issued by the International Accounting Standards Board ("IASB") have been condensed or omitted, and accordingly, these Interim Financial Statements should be read in conjunction with the Company's Annual Financial Statements.

b) Basis of presentation

These Interim Financial Statements have been prepared using the historical cost basis, except for certain financial assets and liabilities which are measured at fair value, as specified by IFRS Accounting Standards for each type of asset, liability, income, and expense as set out in the accounting policies below.

c) Functional and presentation currency

These Interim Financial Statements are presented in Canadian dollars ("Canadian dollar" or "CAD" except as otherwise noted), which is also the functional currency of the parent company. The functional currency is the currency of the primary economic environment in which an entity operates. References to "USD" or "US\$" are to United States dollars.

d) Basis of consolidation

These Interim Financial Statements include the accounts of the Company and its subsidiaries. All intercompany transactions and balances are eliminated on consolidation. Subsidiaries are included in the Interim Financial Statements from the date control commences until the date control ceases. Control exists where the parent entity has power over the investee and is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

(Unaudited - expressed in Canadian dollars, except where noted)

2. BASIS OF PRESENTATION (continued)

A summary of the Company's subsidiaries included in these Interim Financial Statements as at March 31, 2025 is as follows:

| Name of subsidiary | Country of incorporation | Percentage ownership | Functional currency | Principal activity |
|-------------------------------------|---------------------------------|-----------------------------|----------------------------|---------------------------|
| CopperBank Royalties Corp. | Canada | 100% | CAD | Holding |
| Enesco International Inc. | USA | 100% | USD | Exploration |
| Redhawk Copper Inc. | USA | 100% | USD | Exploration |
| Redhawk Ranch Land Holdings LLC | USA | 100% | USD | Holding |
| Redhawk Exploration LLC | USA | 100% | USD | Holding |
| Redhawk Resources, Inc. ("Redhawk") | Canada | 100% | CAD | Holding |

As at March 31, 2026, the Company has one operating segment, a mineral exploration group focused on projects located in the United States of America.

3. MATERIAL ACCOUNTING POLICY INFORMATIONS

These Interim Financial Statements were prepared using accounting policies consistent with those described in the Annual Financial Statements.

The Company has not early adopted any new accounting standard, interpretation or amendment that has been issued but is not yet effective.

In preparing these Interim Financial Statements, the Company applied the same significant judgements in applying its accounting policies and is exposed to the same sources of estimation uncertainty as disclosed in its Annual Financial Statements.

New IFRS Accounting Standards adopted during the period**Amendments to the Classification and Measurement of Financial Instruments (Amendments to IFRS 9 *Financial Instruments* "IFRS 9" and IFRS 7 *Financial Instruments: Disclosures* "IFRS 7")**

In May 2024, the IASB issued Amendments to the Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7). These amendments updated classification and measurement requirements in IFRS 9 and related disclosure requirements in IFRS 7. The IASB clarified the recognition and derecognition date of certain financial assets and liabilities, and amended the requirements related to settling financial liabilities using an electronic payment system. It also clarified how to assess the contractual cash flow characteristics of financial assets in determining whether they meet the 'solely payments of principal and interest' criterion, including financial assets that have environmental, social and corporate governance (ESG)-linked features and other similar contingent features. The IASB added disclosure requirements for financial instruments with contingent features that do not relate directly to basic lending risks and costs and amended disclosures relating to equity instruments designated at fair value through other comprehensive income. The Company adopted these amendments to IFRS 9 and IFRS 7 effective January 1, 2026 and is in compliance with the amended requirements. The adoption of these amendments did not result in any material changes to the Company's financial position, results of operations, presentation, or related disclosures.

(Unaudited - expressed in Canadian dollars, except where noted)

3. MATERIAL ACCOUNTING POLICY INFORMATIONS (continued)**New IFRS Accounting Standards and interpretations not yet applied**IFRS 18 Presentation and Disclosure in Financial Statements ("IFRS 18")

On April 9, 2024, the IASB issued IFRS 18 *Presentation and Disclosure in Financial Statements*. IFRS 18 will apply for reporting periods beginning on or after January 1, 2027 and also applies to comparative information. IFRS 18 will replace IAS 1; many of the other existing principles in IAS 1 are retained, with limited changes. IFRS 18 will not impact the recognition or measurement of items in the financial statements, but it may change what an entity reports as its 'operating profit or loss'. Key new concepts introduced in IFRS 18 relate to: (i) the structure of the statement of profit or loss; (ii) required disclosures in the financial statements for certain profit or loss performance measures that are reported outside an entity's financial statements (that is, management-defined performance measures); and (iii) enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general. The Company is currently assessing the effects of IFRS 18 on the financial statements.

5. RESOURCE PROPERTIES**Copper Creek Project, Arizona**

The Company acquired 100% of the Copper Creek project through the acquisition of Redhawk for a value of \$4,955,328 in 2018. All permits of this resource property are in good standing. During the three months ended March 31, 2026, there have been no additions to acquisition costs (March 31, 2025 - \$nil).

FARADAY COPPER CORP.**Notes to the Condensed Interim Consolidated Financial Statements****For the three months ended March 31, 2026 and 2025**

(Unaudited - expressed in Canadian dollars, except where noted)

5. RESOURCE PROPERTIES (continued)

- D & G Mining Agreement

In November 2005, Redhawk entered into a lease-to-purchase agreement with a third party for additional property within the Copper Creek boundaries. Redhawk has the option to purchase the property for US\$3,000,000 until May 2033.

Redhawk paid US\$80,000 in both 2006 and 2007 and US\$100,000 annually from 2008 to 2017. Starting May 2018, Redhawk is required to make two payments per year of US\$25,000 due by May 31 and by November 30, until the end of May 2033.

Commencing January 1, 2022, 50% of the annual payments made prior to exercising the option to purchase will be applied against the purchase price in the event that Redhawk exercises its property purchase option. As of March 31, 2026, the purchase option has not been executed. All options payments to date have been made to keep the option in good standing.

- Freeport Mineral Corporation Agreement

In April 2007, Redhawk entered into a purchase agreement with Freeport Mineral Corporation ("Freeport") to acquire additional mining claims within the Copper Creek boundaries. The additional mining claims are subject to a 1% net smelter return royalty.

On May 30, 2018, Redhawk entered into an amendment to the Fourth Workout Agreement with Freeport. The substance of the amended agreement is a conversion of interest and principal owing to Freeport into production decision royalty payments. The total will be US\$3,000,000 paid in six equal annual instalments of US\$500,000 per annum. The payments are contingent upon Redhawk or successors achieving a defined commercial production of minerals. As a result of this amendment, no liabilities in connection with this agreement have been recorded as of March 31, 2026 and December 31, 2025.

Contact Copper Project, Nevada

The Company owns a 100% interest in the Contact Copper project located in Elko County, Nevada. All permits of this resource property are in good standing. During the three months ended March 31, 2026, there have been no additions to acquisition costs (March 31, 2025 - \$nil).

| Exercised | (2,475,000) | 0.60 |
| Outstanding, March 31, 2026 | 7,000,000 | 0.60 |

The weighted average share price on the dates of exercises of warrants was \$3.99. As at March 31, 2026, the Company had 7,000,000 warrants outstanding (December 31, 2025 - 9,475,000) all of which have an exercise price of \$0.60 and expire on September 16, 2026. As at March 31, 2026, the weighted average remaining life of these warrants is 0.46 years (December 31, 2025 - 0.71 years).

d) Options

The Company has a long-term incentive plan ("LTIP") which provides for the grant of deferred share units, restricted share units ("RSU"), performance share units, and stock options ("Options") which may be converted into a maximum of 10% of issued and outstanding common shares. As of March 31, 2026, the LTIP allows for a maximum of 20,551,557 common shares to be reserved for issuance under the LTIP.

Options have a maximum term of five years and terminate up to 90 days following the date on which an optionee ceases to be an employee, director, consultant, or officer and up to 30 days following the date on which an optionee who is engaged to provide investor relations activities ceases to be engaged to provide such services. In the case of death, the option terminates at the earlier of twelve months after the date of death and the expiration of the option period.

On January 12, 2026, the Company granted 1,175,000 stock options with exercise price of \$2.87 per share to consultants, directors, and officers of the Company. These options can be exercised for a period of five years from the date of grant and are subject to the policies of the applicable stock exchange. Of these options, one third will vest one year from the grant date, one third will vest two years from the grant date and the remaining one third will vest over three years from the grant date.

A summary of the Company's stock options activity is as follows:

| | Number of options | Weighted average exercise price |

The weighted average remaining contractual life of the Company's options as at March 31, 2026, was 3.08 years (December 31, 2025 - 0.73 years). During the three months ended March 31, 2026, the Company incurred share-based compensation expense related to options of \$296,158 in connection with options vested (2025 - \$896).

e) Restricted share units

When the Company issues RSUs, it records a share-based compensation expense in the year or period which the RSUs are granted and/or vested. The expense is measured at the fair value of RSUs calculated using a deemed price that is based on the volume weighted average trading price of the Company's common shares for the five trading days immediately preceding the grant date as prescribed in the Company's Amended and Restated LTIP.

During the three months ended March 31, 2026, the Company incurred share-based compensation expense related to RSUs of \$355,860 in connection with RSUs vested (2025 - \$383,230).

On January 12, 2026, the Company granted 157,000 RSUs to employees of the Company. Of these RSUs, one third will vest one year from the grant date, one third will vest two years from the grant date and the remaining one third will vest over three years from the grant date.

A summary of the Company's RSU activity is as follows:

| | Number of non-vested RSUs | Weighted average issue price |
|---|---------------------------------|------------------------------------|
| | # | \$ |
| Non-vested balance, December 31, 2024 | 3,067,086 | 0.60 |

10. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Company's financial instruments are exposed to several financial and market risks, including credit, interest rate and liquidity risks. The Company may, or may not, establish from time-to-time active policies to manage these risks. The Company does not currently have in place any active hedging or derivative trading policies to manage these risks since the Company's management does not believe that the current size, scale and pattern of cash flow of its operations would warrant such hedging activities.

Fair value of financial instruments

The fair value hierarchy established by IFRS 13 *Fair Value Measurement* has three levels to classify the inputs to valuation techniques used to measure fair value described as follows:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 - Inputs other than quoted prices that are observable for the assets or liabilities either directly or indirectly; and

Level 3 - Inputs that are not based on observable market data.

The fair values of the Company's cash and cash equivalents, term deposits, accounts payable and accrued liabilities and due to related parties are equivalent to their carrying values due to their short-term nature.

Credit risk

Credit risk is the risk of potential loss to the Company if the counterparty to a financial instrument fails to meet its contractual obligations. The Company is exposed to credit risk through its cash and cash equivalents. The Company mitigates its exposure to credit loss associated with cash and cash equivalents by placing its cash and cash equivalents in major financial institutions.

As at March 31, 2026, the Company held cash equivalents of \$107,598,926 in short-term deposits (December 31, 2025 - \$37,450,145) that are cashable in no more than 90 days and bear interest up to 4.14% (December 31, 2025 - 4.46%). In addition, the Company held \$25,256,071 in long-term deposits (December 31, 2025 - \$nil) with maturities between 90 and 365 days and bear interest up to 4.24% (December 31, 2025 - nil). Interest income on short-term deposits during the three months ended March 31, 2026 was \$520,103 (2025 - \$51,813) and interest income on longer-term deposits was \$54,986 (December 31, 2025 - nil). Given the high credit quality of the financial institutions and the short-term, highly liquid nature of the term deposits, the Company assesses its exposure to credit risk to be minimal.

Liquidity risk

Liquidity risk is the risk that the Company may be unable to meet its financial obligations as they fall due or that it will be required to meet them at excessive cost. To mitigate the risk, the Company reviews its working capital position regularly to ensure there is sufficient capital in order to meet short-term business requirements, after taking into account the Company's holdings of cash and cash equivalents. The Company's cash and cash equivalents are maintained in business accounts and invested in short-term deposits that are cashable in no more than 90 days and bear interest up to 4.14% (December 31, 2025 - 4.46%). In addition, the Company holds long-term deposits with maturities between 90 and 365 days and bear interest up to 4.24% (December 31, 2025 - nil). The Company manages its liquidity risk mainly through raising funds from private placements. The Company's accounts payable and accrued liabilities are due within 90 days of March 31, 2026 and due to related parties has no specific terms of repayment. Given the Company's proactive management of working capital, the high liquidity of its term deposits, and its ability to access funds through private placements, the Company assesses its liquidity risk to be low.

The Company's operating cash requirements are continuously monitored and adjusted as input variables change. As these variables change, liquidity risks may necessitate the need for the Company to pursue equity issuances, obtain project or debt financing, or enter into joint arrangements. There is no assurance that the necessary financing will be available in a timely manner.

Interest rate risk

Interest rate risk is the risk that the Company is exposed to the risk that the value of financial instruments will change due to movements in market interest rates. As at March 31, 2026 the Company did not have debt instruments exposed to variable interest rate.

FARADAY COPPER CORP.**Notes to the Condensed Interim Consolidated Financial Statements****For the three months ended March 31, 2026 and 2025**

(Unaudited - expressed in Canadian dollars, except where noted)

10. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)**Foreign exchange risk**

Foreign exchange risk is the risk that the fair value of the Company's assets and liabilities will fluctuate due to changes in foreign exchange rates.

The Company is exposed to foreign currency risk to the extent that monetary assets and liabilities held by the Company are not denominated in its functional currency. The Company does not manage currency risk through hedging or other currency management tools.

A summary of the Company's financial assets and liabilities that are denominated in US dollars and are presented in the Company's functional currency is as follows:

| | | March 31, 2026 | | December 31, 2025 |
|--|-------------|-------------------|------------|----------------------|
| | US\$ | \$ | US\$ | \$ |
| Cash and cash equivalents | 34,493,107 | 48,079,942 | 18,555,485 | 25,432,148 |
| Term deposits | 18,039,962 | 25,145,903 | - | - |
| Accounts payable and accrued liabilities | (1,831,651) | (2,553,138) | (939,352) | (1,287,476) |
| | 50,701,418 | 70,672,707 | 17,616,133 | 24,144,672 |

As at March 31, 2026, a 5% change in the US dollar against the Canadian dollar would result in a \$3,533,635 impact on the net loss to the Company. The Company's foreign exchange exposure primarily relates to cash deposits held in US dollars. These funds are intended to be used to finance exploration activities for the Copper Creek Project and are expected to decrease over time as expenditures are incurred. The Company's exposure to foreign currency risk is limited to the US dollar, which is not the currency of a hyperinflationary economy.

11. COMMITMENTS

On May 1, 2024, the Company entered into a management services agreement (the "Agreement") with a management services company for the use of certain shared office facilities and related services. As part of the terms of the Agreement, the Company is required to pay a basic fee per month, plus applicable taxes. Effective January 1, 2026, the basic fee was \$37,200 per month and is subject to adjustment. The Agreement expires on April 30, 2029. The Company is required to make a one-time termination payment as determined by the Agreement and the management services company, if the Company were to terminate the agreement prior to its expiry.

As at March 31, 2026, the Company has a statewide surety bond of US\$575,000 in place to secure reclamation and restoration obligations related to disturbances under its approved Exploration Plan of Operations. The bond carries an annual premium of 2.5%, which is expensed as incurred.

12. SUBSEQUENT EVENTS
