1. NATURE OF OPERATIONS AND GOING CONCERN

Copperbank Resources Corp. (the “Company” or “Copperbank”) was incorporated on October 21, 2014 under the *Business Corporations Act* (British Columbia). The Company’s registered office is Suite 910 – 800 West Pender St., Vancouver, British Columbia, V6C 2V6. The Company’s head office and principal address is located at 1500-409 Granville St., Vancouver, British Columbia, V6C 1T2. The Company’s shares are traded on the Canadian Securities Exchange (“CSE”) under the symbol “CBK”, and its principal business is the acquisition and development of mineral properties.

Since December 31, 2019, the outbreak of the novel strain of coronavirus, specifically identified as “COVID-19”, has resulted in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine periods and physical distancing, have caused material disruption to business globally resulting in an economic slowdown. Global equity markets have experienced significant volatility and weakness. The duration and impact of the COVID-19 outbreak is unknown at this time, as is the efficacy of the government and central bank interventions. It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Company in future periods.

Going concern

These consolidated financial statements have been prepared based on accounting principles applicable to a going concern, which assumes that the Company will be able to continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. Accordingly, these consolidated financial statements do not include any adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern.

The Company is a resource exploration stage company, which does not generate any revenue and has been relying on equity-based financing to fund its operations. The Company has recurring losses since inception and had a working capital deficiency of \$643,477 as of September 30, 2020. The Company will require additional financing either through equity or debt financing, sale of assets, joint venture arrangements or a combination thereof to meet its administrative costs and to continue to explore and develop its mineral properties. There is no assurance that sufficient future funding will be available on a timely basis or on terms acceptable to the Company. These conditions indicate the existence of material uncertainties that cast significant doubt as to the ability of the Company to meet its obligations as they come due, and accordingly, the appropriateness of the use of accounting principles applicable to a going concern is in significant doubt.

The application of the going concern concept is dependent upon the Company’s ability to generate future profitable operations and maintain an adequate level of financial resources to discharge its ongoing obligations. Management seeks to raise capital, when necessary, to meet its funding requirements and has undertaken available cost-cutting measures. There can be no assurance that management’s plan will be successful, as it is dependent on prevailing capital market conditions and the availability of other financing opportunities. These consolidated financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

2. STATEMENT OF COMPLIANCE

These condensed consolidated interim financial statements together with the comparative figures herein have been prepared in accordance with International Accounting Standards (“IAS”) 34 “Interim Financial Reporting” (“IAS 34”) using accounting policies consistent with the International Financial Reporting Standards (“IFRS”) issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”).

These condensed consolidated interim financial statements do not include all the information required of a full annual financial report and is intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the end of the last annual reporting period. It is therefore recommended that these condensed interim financial statements be read in conjunction with the audited annual financial statements of the Company for the most recent year ended December 31, 2019.

3. SIGNIFICANT ACCOUNTING POLICIES

Basis of preparation

These consolidated financial statements have been prepared on a historical cost basis, except for certain financial instruments carried at fair value. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

These consolidated financial statements incorporate the accounts of the Company and its wholly owned subsidiaries, Enxco International Inc. (“Enxco US”) (USA), 1016079 B.C Ltd. (Canada), Copperbank Resources Alaska Inc. (USA), Copperbank Royalties Corp. (incorporated in Canada during 2019), Redhawk Resources, Inc. (Canada), Redhawk Copper Inc. (USA), Redhawk Resources (USA), Inc., and Copper Creek Project LLC (USA). A subsidiary is an entity in which the Company has control, where control requires exposure or rights to variable returns and the ability to affect those returns through power over the investees. All intercompany transactions and balances have been eliminated on consolidation.

The Company has not changed its accounting policies since its prior year ended December 31, 2019 and has applied accounting policies consistently for all periods presented.

4. RESOURCE PROPERTIES

Copper Creek Mineral Properties, Arizona

i) The Company acquired 100% of the Copper Creek Project through the acquisition of Redhawk Resources Inc. (“Redhawk”) with a value of \$4,955,328 during the third quarter of 2018.

ii) D & G Mining Agreement - In November 2005, Redhawk entered into a lease-to-purchase agreement with a third party for additional property within the Copper Creek boundaries. Redhawk paid US\$80,000 in both 2006 and 2007 and was required to pay US\$100,000 in November 2008 and annually thereafter until the end of year fifteen. In May 2018, the agreement was amended to reduce the annual payments to US\$50,000. As at September 30, 2020, \$33,348 (USD25,000) was paid for 2020.

Redhawk has the option to purchase the property for US\$3,000,000. Commencing January 1, 2022, 50% of the yearly lease payments made prior to exercising the option to purchase will be applied against the purchase price in the event that Redhawk exercises its property purchase option.

iii) Freeport Mineral Corporation Agreement - In April 2007, Redhawk entered into a purchase agreement with Freeport Mineral Corporation (“Freeport”) to acquire additional mining claims within the Copper Creek boundaries. The additional mining claims are subject to a 1% Net Smelter Return royalty.

4. RESOURCE PROPERTIES (Continued)
Copper Creek Mineral Properties, Arizona (Continued)

In conjunction with Redhawk's acquisition of mining claims from Freeport, Redhawk entered into a promissory note. The promissory note with the principal amount of US\$1,525,594 is repayable over 11 years and bears interest at 5% per annum. On May 30, 2018, Redhawk entered into an amendment to the Fourth Workout Agreement with Freeport. The substance of the amended agreement is a conversion of interest and principal owing to Freeport into production decision royalty payments. The total will be US\$3,000,000 paid in six equal annual instalments of US\$500,000 per annum. The payments are contingent upon Redhawk or successors achieving a defined commercial production of minerals. As a result of this amendment, no liabilities in connection with this promissory note has been recorded as at June 30, 2020 and December 31, 2019.

iv) Morgan Agreements - In December 2012, Redhawk acquired patented land from two unrelated parties for total consideration of US\$1.2 million. Redhawk is required to pay \$66,696 (US\$50,000) in 2020

Contact Property, Nevada

The Company owns a 100% interest in the Contact property located in Elko County, Nevada. This property was fully impaired during fiscal 2015. The Company intends to keep the permit of this resource property in good standing.

As at September 30, 2020, the Company has deposited \$8,569 (2019 - \$8,446) for the reclamation deposits of the Contact property in Nevada and for the Copper Creek property in Arizona.

5. SHARE CAPITAL

a) Authorized

Unlimited number of common shares without par value.

b) Issued and outstanding

On July 8, 2020, the Company consolidated its outstanding common shares on 4-to-1 basis. The presentation of number of shares, warrants, stock options and loss per share in these financial statements have been retrospectively adjusted for this share consolidation.

During the nine months ended September 30, 2020:

On January 23, 2020, 1,250,000 common shares were issued through private placement at \$0.24 per share for gross proceeds of \$300,000.

On February 11, 2020, 791,583 common shares were issued through private placement at \$0.24 per share for gross proceeds of \$189,980.

On February 11, 2020, 250,000 common shares were issued at \$0.28 per share to settle the share issuance obligation of \$70,000 recorded on December 31, 2019.

On May 13, 2020, the Company issued 337,500 common shares at \$0.24 per share for gross proceeds of \$81,000 pursuant to a private placement.

On July 21, 2020, the Company issued 1,250,000 common shares at \$0.20 per share for gross proceeds of \$250,000 pursuant to a private placement.

As at September 30, 2020, the weighted average exercise price and remaining life of these warrants was \$1.00 per share and 1.89 years.

d) Options

The Company has a “rolling” stock option plan (the “Plan”) that allows the Company to grant options to its employees, directors, consultants and officers for a maximum of 10% of outstanding shares to be issued.

Options have a maximum term of five years and terminate up to 90 days following the date on which an optionee ceases to be an employee, director, consultant or officer, and up to 30 days following the date on which an optionee who is engaged to provide investor relations activities ceases to be engaged to provide such services. In the case of death, the option terminates at the earlier of twelve months after the date of death and the expiration of the option period.

On July 24, 2020, the Company granted 3,800,000 incentive stock options, with an exercise price of \$0.23, to officers, directors and consultants of the Company. These options can be exercised for a period of five years from the date of grant, are subject to the policies of the Canadian Securities Exchange and contain vesting provisions whereby 25% of these options will vest six months from the date of grant and 25% vesting every six months thereafter.

During the nine months ended September 30, 2020, the Company incurred share-based compensation of \$206,005 (2019 - \$366,042) in connection with options vested. The Company used Black Scholes option pricing model and the following assumptions to determine the fair values of the stock options granted in the year:

On June 17, 2019 the Company closed a non-brokered private placement of convertible debentures ("CDs") for gross proceeds of \$263,000. Each CD has an issue price of \$1,000, a term of two years from the date of issuance and bears an interest at a rate of 15% per annum, calculated monthly and payable monthly in cash with the first payment being due on July 14, 2019 (paid) and will mature and be payable on June 14, 2021. Each Debenture is convertible into common shares of the Company at the option of the holder at any time prior to maturity at a conversion price of \$0.28 per common share. The Company will have the option to redeem the CD at a redeemable price equal to their principal amount plus accrued and unpaid interest. The interest rate on the CD is approximately the market interest rate in determining the fair value of the liability component. Thus, no value has been assigned to the equity component.

For nine months ended September 30, 2020, the Company has incurred interest expense of \$31,114 on the convertible debentures (2019 - \$11,670).

9. LOAN AND AMOUNTS PAYABLE

In May 2020, the Company borrowed \$40,000 under a government sponsored program. This loan is non-interest bearing, unsecured and due on December 31, 2022. \$10,000 of this loan will be forgiven if \$30,000 is repaid in full on or before December 31, 2022.

In connection with a debt repayment agreement (the "Agreement") with the original optionor (the "Optionor") of the Pyramid Project, the Company owed the Optionor \$173,710 (USD \$125,000) plus interest at the rate of 10% per annum, which is due by March 4, 2022 (Note 4). Related to the Agreement, the Company is required to pay to the Optionor at least 20% of the net proceeds from any debt or equity financing or sale of any assets. During this quarter ended September 30, 2020, the Company paid USD \$40,000 towards this debt. As at September 30, 2020, the remaining balance of this debt is \$139,614 (USD \$104,268) including principal and accrued interest which is due on March 4, 2022.

10. FINANCIAL INSTRUMENTS

The Company's financial instruments are exposed to several financial and market risks, including credit, interest rate, liquidity and commodity risks. The Company may, or may not, establish from time to time active policies to manage these risks. The Company does not currently have in place any active hedging or derivative trading policies to manage these risks since the Company's management does not believe that the current size, scale and pattern of cash flow of its operations would warrant such hedging activities.

Fair value of financial instruments

The fair value hierarchy established by IFRS 13 Fair Value Measurement has three levels to classify the inputs to valuation techniques used to measure fair value described as follows:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than quoted prices that are observable for the assets or liabilities either directly or indirectly; and

Level 3 – Inputs that are not based on observable market data.

The fair values of the Company's accounts receivable, deposits and accounts payable are equivalent to their carrying values due to their short-term nature.

Credit risk

Credit risk is the risk of potential loss to the Company if the counterparty to a financial instrument fails to meet its contractual obligations.

The financial instruments that potentially subject the Company to a significant concentration of credit risk consist of cash and cash equivalents. The Company mitigates its exposure to credit loss associated with cash and cash equivalents by placing its cash and cash equivalents in major financial institutions. As at September 30, 2020, the Company had cash equivalents of \$2,300 in term deposits (2019 - \$2,300).

Liquidity risk and fair value hierarchy

Liquidity risk is the risk that the Company may be unable to meet its financial obligations as they fall due or that it will be required to meet them at excessive cost. The Company reviews its working capital position regularly to ensure there is sufficient capital in order to meet short-term business requirements, after taking into account the Company's holdings of cash. The Company's cash is invested in business accounts, which are available on demand. The Company manages its liquidity risk mainly through raising funds from private placements and amounts from related parties.

The Company's operating cash requirements are continuously monitored and adjusted as input variables change. As these variables change, liquidity risks may necessitate the need for the Company to pursue equity issuances, obtain project or debt financing, or enter into joint arrangements. There is no assurance that the necessary financing will be available in a timely manner.

10. FINANCIAL INSTRUMENTS (Continued)

Commodity risk

The Company is subject to commodity price risk arising from the fluctuation of metal price beyond the Company's control. The Company may have difficulties to identify and acquire economically viable projects for the Company to invest in if metal prices are depressed for an extended period.

Interest rate risk

The Company is exposed to the risk that the value of financial instruments will change due to movements in market interest rates. As of September 30, 2020, the Company did not have debt instruments exposed to variable interest rate. The risk is not significant.

Foreign currency risk

Foreign currency risk is the risk that the fair value of the Company's assets and liabilities will fluctuate due to changes in foreign exchange rates.

The Company is exposed to foreign currency risk to the extent that monetary assets and liabilities held by the Company are not denominated in its functional currency. The Company does not manage currency risk through hedging or other currency management tools.

As at September 30, 2020 and December 31, 2019, the Company's exposure to foreign currency risk on its financial instruments is as follows:

	September 30, 2020	December 31, 2019
Cash	US\$ 3,170	US\$ 3,258
Canadian dollar equivalent	\$ 4,217	\$ 4,232

A 5% change in the US dollar against the Canadian dollar at September , 2020 would result in a change of approximately \$210 in comprehensive loss.

11. SEGMENTED INFORMATION

The Company operates primarily in one business segment, which is the exploration and development of resource properties located in the United States. The Company's non-current assets were \$5,872,364 (2019- \$5,589,108), which comprised mainly of resource properties, property and equipment, and reclamation bonds that are in the United States.
